Hassan

The Palace,
Bangalore.

Personal & Confidential

15th July 1938

My dear Mr. Thumboo Chetty,

Since our conversation by phone before you left for Hassan, I have consulted Dr. Subba Rao and Col. Hance and they both say that nothing very much is the matter with me except that my liver is a bit slack and requires some treatment. Col. Hance the Residency Surgeon has suggested my going to a place like Vittel or Vichy for a few days and consulting Dr. Ryle of the University of Cambridge who is a very good man for liver and stomach troubles. I should like to go over there for a few days particularly as I felt quite well after my return from Europe last year. Anyway, I am going back to Mysore tomorrow and see my family and also how Sujaya is getting on with her appendix trouble. I hope you have referred the matter to my brother about making Dr. Robinson consult one or two other Doctors before undertaking an operation.

I am enclosing a letter dated the 5th July 38 from the Rani Saheb of Jigni which speaks for itself and also the copy of my reply to her. Since then, I received

this morning a telegram from her "Your Highness why staff of my daughter reduced stop. She cannot live happy without servants of this place stop. Your Highness kindly settle this. Am sending 2 sirdars as it is great shock to me. I cannot see daughter in trouble.Rani Saheb Jigni". and I am sending the following reply to her: "His Highness the Maharaja is in charge of my son's affairs. Forwarding copy of your telegram to him.

I must again repeat that I am not kept informed of the arrangements of my son's affairs and the programme chalked out for his administrative training, in spite of the note I sent you some time back on the subject.

More from Mysore. You may kindly send your reply to me to Mysore.

Yours sincerely

P. N. K. Wadiyar
